Welcome

This edition of The Aficionado summarizes our 2018 club events and collects together information from our club forums. Thank you to everyone that contributes to and maintains the forums. Check them regularly for the most up-to-date information on club activities: <http://forums.wsc.mb.ca>.

Please distribute this newsletter to anyone that is interested in joining, participating or volunteering with the Winnipeg Sports Car Club. Please email any updates, corrections or suggestions regarding this newsletter to: khilash@mac.com.

Our first event of 2019 is Ice Racing that starts now in January and continues on into early March. Then, in April, look for our cars in the Winnipeg Sports Car Club booth at the 45th Annual World of Wheels from April 12 to 14, 2019 in the RBC Convention Centre, 375 York Avenue, Winnipeg, Manitoba.

This year we will continue the asphalt resurfacing of the road race track and autoslalom area at the Gimli Motorsports Park. See the details inside of how you can help.

Thank you to all the volunteers that spend their time running the club and our events. Also, thank you to the sponsors that provide funding to help us put on our events. Please support the sponsors you see in the newsletter.

Club Sponsors

Thank you to all the organizations that sponsored the club in 2018, your support was very much appreciated!

In 2019 if you would like your organization to have direct access to hundreds of sport car enthusiasts by sponsoring the Winnipeg Sports Car Club then please contact: khilash@mac.com

\$ 250 - Website business cards ads
\$ 250 - Booth display at an event
\$ 600 - Title name on T-Shirts (per discipline)

GMP Asphalt Resurfacing Project

In 2018 the Winnipeg Sports Car Club (WSCC) initiated a project to begin resurfacing the asphalt at the Gimli Motorsports Park (GMP) road race track using funding from the WSCC's capital improvement fund, the Province of Manitoba Community Places Program as well as borrowing funds from the Gimli Community Development Corporation.

This funding allowed us to complete the repair and resurfacing of corners one and three from the beginning of the braking zones right through to the end of the corners. In these areas the existing track surface was prepared by grinding down the bumps, filling in dips and cracks and cutting out and repacking the base to permanently fix problem areas. The surface was then sprayed with bonding agent and two inches of fresh asphalt was laid over top. The result was an enormous success with the racers and it is now desired to resurface the remaining portions as soon as possible. A big thank you to Superior Asphalt Paving Co. Ltd. for working with us!

In 2019 the plan is to continue the project and at a minimum repair and resurface corners six, seven and eight, the main straight bump as well as make repairs to the area just south of the road race track that is used for autoslalom and race schools. Additional work will be done depending on the amount of funding that is raised. Last year the Community Places Program matched the amount of money the WSCC put into the project. We can apply to this same program again in 2019 and if we are successful and they match the money we raise then this potentially doubles the amount we have to spend on the repairs and resurfacing.

Winnipeg Sports Car Club

The Gimli Motorsports Park is located in Gimli, Manitoba, Canada. Gimli is on the shore of Lake Winnipeg and is a popular summer tourist destination. The GMP is the only sports car road race track in Canada between Alberta and Ontario and this combined with its extensive heritage attracts drivers from long distances. Many world-famous drivers have raced at the GMP during their careers including Canadian racing legend Gilles Villeneuve, Indy 500 winner Bobby Rahal and F1 World Champion Keke Rosberg and the list goes on and on. The GMP has recently hosted cars and drivers from six Canadian provinces, four US states and Europe at WSCC events.

Repairing the GMP race track will preserve the heritage of the track. In addition to legendary drivers that have raced there over the years, the GMP is also where the famous "Gimli Glider" landed in 1983 when an Air Canada passenger plane ran out of fuel and glided to a landing at the GMP during a Winnipeg Sports Car Club race weekend.

The Winnipeg Sports Car Club is a non-profit corporation and at 67 years is Canada's oldest continuously operating sports car club. Since 1952 the WSCC has organized motorsport events in and around Winnipeg and since the 1970's primarily at the Gimli Motorsports Park. These motorsports events are sanctioned by the Western Canada Motorsport Association in affiliation with ASN Canada FIA and includes road racing, time attack, autoslalom, track days, high performance driving education (HPDE) race schools as well as ice racing in the winter. From May to October every year the WSCC brings thousands of visitors to Gimli for sports car racing while the GMP also hosts motorcycle racing, drag racing, private rentals and kart racing that bring thousands more.

The GMP road race track is 1.3 miles long and currently has two configurations allowing for 8 or 9 corners. Built in 1973 the GMP is 46 years old and the race track and facilities are now showing their age. Over the years, the WSCC have patched and repaired portions of the track to maintain it however after more than four decades it is time to repair and resurface the entire track. Portions of the race track surface are very bumpy and abrasive with drop-offs at the track edge in some corners. The bumps and cracks need to be repaired, the entire race track resurfaced and curbs added to the corners. The curbs and track edges then need to be painted using specific race track paint that has the same grip level as asphalt even when it's raining.

The GMP road race track was designed in 1972 by three people: George Chapman (an original founder and first president of the WSCC, also the 1966 Canadian Racing Driver Champion and inducted into both the Canadian Motorsport Hall of Fame and the Manitoba Motorsports Hall of Fame), Bob Hanna (at the time the CEO of Canadian Automobile Sport Clubs) and Ron Lyseng (at the time the WSCC Race Director). Two government officials, Barry Waller from Manitoba Highways and Bob Gemmel from the Gimli Industrial Park, were also there to offer advice and approve the design.

Ron Lyseng said "In actual fact, much of the track designed itself. The agreement we negotiated with the province stated they would only lay asphalt on the runway and pre-existing gravel sub-base remaining from the old RCAF pilot basic training triangle. They would not excavate or lay new base."

"From the middle of Corner One to the middle of Corner Eight, all track asphalt is installed on pre-existing gravel base. You can easily see the vegetative difference between pure prairie soil and gravel base if you look at Google or any aerial photo or walk the track perimeter."

"We swerved from one side to the other and pushed the limits of those narrow gravel strips as much as possible, and that's the track we ended up with. It's really not too bad, considering the circumstances."

Original Gimli Track Design

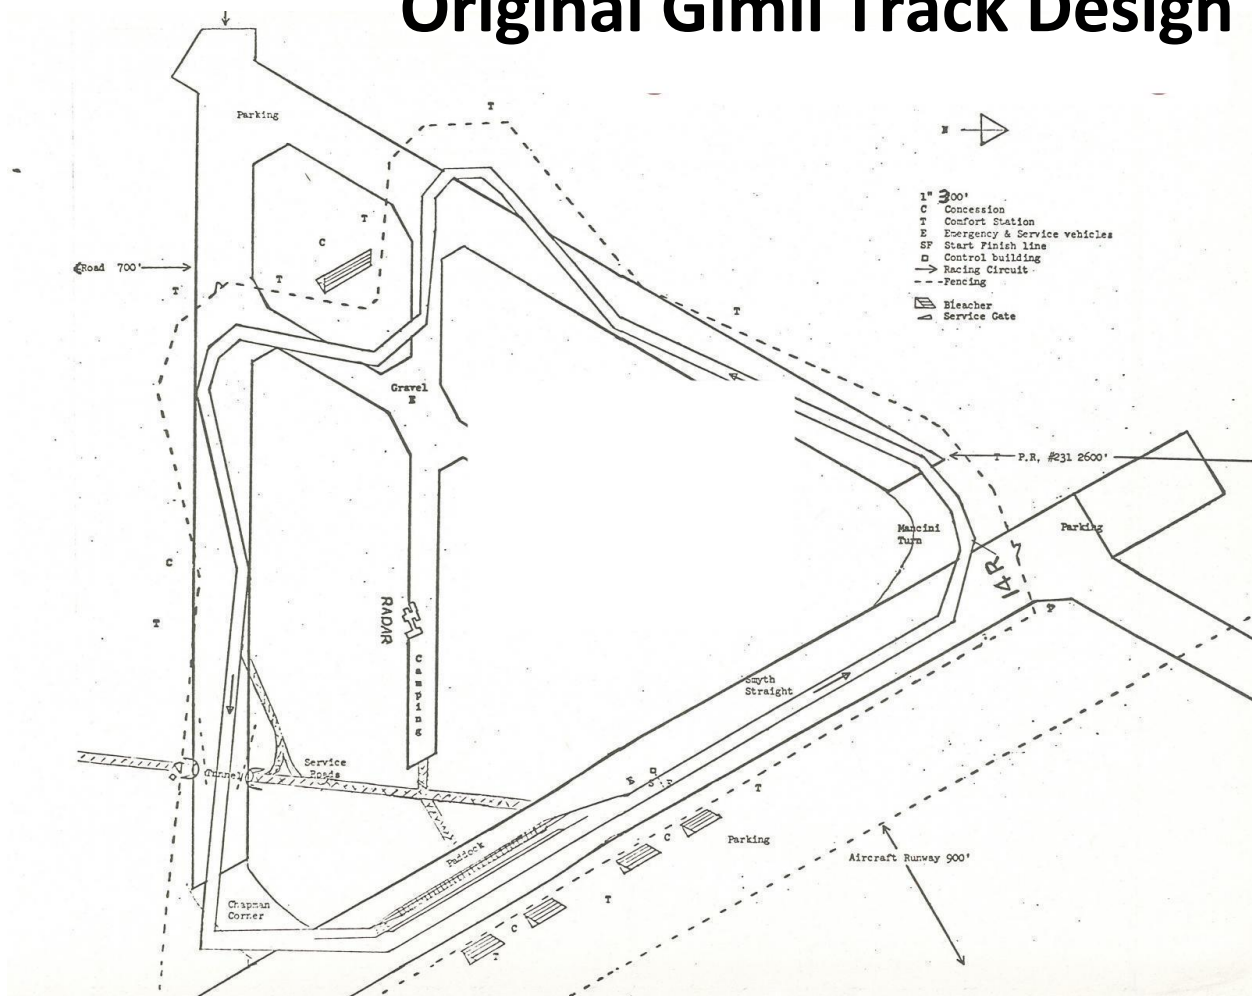

Diagram provided by Mike Adams

The GMP is very important to the WSCC as approximately 75% of the revenue required to run the club is generated by events held at the GMP. After over four decades it is time to bring the road race track back up to the condition it deserves as a premier road race track. The permit for the WSCC to use the GMP has been extended to 10 years until 2029 and increased from 6 to 8 events per year. This long-term commitment means the WSCC will be able to use and enjoy the track repairs and resurfacing for at least the next decade.

Photo provided by Mat Léveillé

Resurfacing Corner Three

The WSCC would like to ask all current and former members to each donate \$1,000 to the GMP road race track asphalt resurfacing project. Usually the only costs associated with being a club member are your annual membership dues and event entry fees. This is a one-time special request where you can make a difference in preserving road racing in Manitoba and allowing the club to continue to attract local and out-of-town racers for many years to come.

Also, making a donation will actually save participants money. We have already seen that the repairs and resurfacing at corners one and three have eliminated the excessive abrasiveness of the track surface and significantly reduced tire wear. This means you will save significant money on your annual tire budget. Also, the repairing of the bumps and cracks and having a smooth track surface means less wear and tear on your cars saving additional money on repairs.

Donations can be made by cheque and given to the club Treasurer, Chris Boettcher, at any of our events or meetings. Cheque can also be mailed to the club at WSCC Box 672, Winnipeg, MB R3C 2K3. Please make all cheques payable to "Winnipeg Sports Car Club".

Winnipeg Sports Car Club

If you are willing to donate an amount that has five or six digits (\$10,000 and over or \$100,000 and over) then the club president will drive to your location and pick up your cheque making it as easy as possible for you to donate.

Many sporting clubs will apply a special assessment on club members however with this request there is no obligation. This is a big ask and not everyone can afford \$1,000 but that is not a problem. Please donate any amount that you can as it all adds up.

Alternatively, you can ask your employers if they are willing to donate in exchange for an advertising sign at the GMP that will be viewed by thousands of car enthusiasts. Another option is to ask any companies that you do business with as they may be willing to sponsor \$1,000 or more in exchange for advertising signage. The GMP is a large facility and there are many options for large and small advertising that we can consider. Please feel free to provide a copy of this article to any potential sponsors to let them know about the project and the donation opportunities.

If you have any questions about the GMP asphalt resurfacing project or would like your cheque to be picked up then please contact the club President, Ken Hilash at president@wscc.mb.ca or 204-952-3001.

Donations to the Gimli Motorsports Park Asphalt Resurfacing Project can be made by cheque and mailed to:

**Winnipeg Sports Car Club
Box 672, Winnipeg, MB R3C 2K3**

Or give them to the club Treasurer, Chris Boettcher, at any of our events or meetings

Or have your cheque picked up by contacting the club President, Ken Hilash, at president@wscc.mb.ca or 204-952-3001

Please make all cheques payable to "Winnipeg Sports Car Club"

2019 Road Race Schedule

The 2019 Winnipeg Sports Car Club road race schedule at the Gimli Motorsports Park has already been set. Please use the following dates to plan your racing season:

2019 WSCC Road Race Schedule	
May 3 to 5, 2019	High Performance Driving Experience (HPDE), Race School, Test & Tune
May 24 to 26, 2019	Road Race #1
June 21 to 23, 2019	Road Race #2
July 26 to 28, 2019	Road Race #3 WCMA Runoffs
August 16 to 18, 2019	Road Race #4 CMW Vintage Weekend
September 20 to 22, 2019	Road Race #5 Season Finale

For more information on road racing, please visit the road race website <http://www.wsc.mb.ca/road-race/> and the road race section on the club forum: <http://forums.wsc.mb.ca/index.php?/forum/9-road-race-general-discussion/>

2019 Track Day Schedule

We are very excited to offer another split discipline event on May 3rd, 2019. One full day of open lapping on the road course and a chance to challenge an Autoslalom course all in the same day at the same venue. For only \$100 participants are free to come and go between courses as they please all day. Instructors will be present on both sides of the track. This a great opportunity to try something new!

2019 WSCC Track Day Schedule		
May 3, 2019	Friday	Track Day #1
May 24, 2019	Friday	Track Day #2
June 21, 2019	Friday	Track Day #3
July 6, 2019	Saturday	Track Day #4
July 7, 2019	Sunday	Track Day #5
July 26, 2019	Friday	Track Day #6
August 16, 2019	Friday	Track Day #7
September 20, 2019	Friday	Track Day #8
October 5, 2019	Saturday	Track Day #9

For more information on track days and their requirements please visit the hot lap section on the club forum: <http://forums.wsc.mb.ca/index.php?/forum/51-hotlap-discussions/>
